

TOSHIBA (Australia) Pty LTD.

ENVIRONMENTAL POLICY

POLICY

It is the Corporate Policy of Toshiba (Australia) Pty LTD. (TAP) to comply with the applicable Government (Commonwealth and State) Environmental policies as announced from time to time, having regard to TAP's business activities which are currently the procurement, importation, warehousing ,distribution, customer support (including technical and product support), servicing, within the Information Systems Division (Computer, Projectors, Audio Visual Products), Electronic Imaging Division (MFD's, Copiers, Facsimile) and Medical Division (Diagnostic Imaging Equipment).

It is also a requirement of the Toshiba (Australia) Pty Limited Standards of Conduct that all employees comply with this Policy at all times.

Toshiba (Australia) Pty. LTD. sets out below the prime basic objectives of its environmental policy:

Commitment to Earth –

TAP considers the protection of the environment as one of its main Corporate Social responsibilities. TAP recognizes that natural resources are finite and endeavors to promote their efficient and effective use to prevent pollution.

Commitment to Compliance –

TAP evaluates and complies with all applicable laws, regulations and industry guidelines concerning the protection of the environment. TAP will endeavor to attain ISO14001 certification for all of its locations in the countries in which it operates.

Commitment to Improvement -

TAP strives to continuously improve its processes to reduce the burden on the environment in the countries in which it operates through the reduction of waste to landfill and the recycling of all recyclable materials.

Commitment of Employees and Stakeholders -

TAP will continually strive to broaden the awareness of its employees and stakeholders as to how they can make a difference to the environment through their daily business activities.

As part of the global Toshiba Group, TAP follows all guidelines set down by its parent Company regarding environmental compliance. All Toshiba group factories from which TAP sources its products either have or are in the process of obtaining ISO14001 certification.
