

<Instantly convert scanned documents to editable files>

e-BRIDGE Re-Rite

Automated intelligence
for the office

**NEW
VERSION
6.1**

e-Bridge RE-RITE™ converts to:

- ★ PDF (Adobe Acrobat®)
- ★ DOC/RTF (Microsoft Word®)
- ★ WPD (Corel® WordPerfect®)
- ★ EXCEL/CSV (Microsoft Excel®)
- ★ HTML (Web pages)
- ★ eBook (Microsoft Reader®)
- ★ TABULAR DATA
- ★ TEXT (Formatted/Unformatted)
- ★ Received Fax to PDF®

... and delivers these searchable or editable digital files to either a Network drive, Selectable network folder, FTP account or your email inbox.

Office Automation software

Convert paper documents to electronic files, like Word®, Excel® or PDF® from your Toshiba e-STUDIO Multi-Function Device (MFD).

The advanced scanning features of Toshiba MFDs make this a reality, and it all happens with the touch of a single button. This means the entire process is completely automated allowing your employees to take advantage of it immediately.

Here's how it works ... documents are placed into the document feeder on your Toshiba e-STUDIO MFD, the user selects a template and moments later the files arrive at your desktop via email or a selected network drive.

No user intervention is required, just open and begin editing with your favourite desktop application. As said, these include Microsoft Word®, Excel®, Adobe® PDF or even HTML web pages, to name a few.

Best of all, e-Bridge RE-RITE® requires just one single licence per server, just think ... unlimited users for the price of one!
